

INDEX TO THE THIRTY-SEVENTH VOLUME

OF THE

MINING JOURNAL.

- A.
- Accidental Death Insurance Company, and Mr. P. Jeffcock, 226, 235, 236; Bell and Robertson, 238
- Accidents in coal mines, the prevention of, and inspection, 29; compensation fund for, W. R. J. Hopkins, 34, 50
- Air-hammer, improved compressed, W. G. Grimshaw, 515
- Alamillos Company, meetings, 220, 648
- Algeria, the future of, 19, 202, 216, 318, 354
- Aluminium bronze, M. Hulot, 432 [458, 166]
- American labour question, and the American ironworks, — tariff question, further information on the, 498
- Anglo-Italian Mining Company, the formation of, 308, 324
- Anglo-Argentine Company, formation, 312 [meeting, 753]
- Anglo-Brazilian Gold Company, meeting, 667
- Anthracite coal trade of the United States, 158
- Andalusia, mining in, 575
- Ansel's fire-damp indicator—See Fire-damp
- Atom mechanics, Prof. A. Heineichs, 562, 904
- Australia, the geology of, and vine culture, W. Keene, 835
- mine reports, &c., 23, 43, 103, 169, 241, 259, 336, 411, 492
- Australian gold, the receipts of, 24 [543, 624, 803, 884]
- Australian Mining Company, and the Messrs. Collier, 493; meetings, 507, 537; J. A. Franklin, 523
- Austria, the mineral resources of, 36
- B.
- Banca, and its tinworks, 321
- Baldwin (Isle of Man) Mining Company, meeting, 304
- Banking, and Liverpool finance, 715
- Barrow Docks, opening of the, 635
- Barnsley coal, improvements in working the, J. Wardle, 82
- Belstone Consols, the prospects of, J. Calvert, 67
- Bishop's Barrow Lead Mining Company, formation of, 454
- Blackband in Pennsylvania, 631
- Black Craig Consolidated Mining Company, formation, 73
- Blake's stone-breaking machine, 139
- Blasting powder, Dr. Ehrhard's new, 50, 57; Mr. Rollason, 569; Webb and Co., 731
- Blast-furnaces of the North of England, &c., 160, 198, 231, — F. Lurmann's new, 562 [335, 532, 548]
- Bloch's Puddled Steel and Malleable Ironworks, 263
- Board of Trade returns, 10, 12, and following numbers
- Borax lake of California, 146
- Boring machinery, E. Preece, 82; the Diamond, M. Pichet, 278; G. Low, 292, 346; Mr. Stockham, 393; C. Jurgens, 458; 538; Mr. Haupt, 515, 642; 572; Blanchard and McKean, 731; Brunton, 759, 795, 807; G. Rickard, 852
- Bradda (Isle of Man) Mining Company, meeting, 824
- Brazil, North-Eastern, mineral deposits in, G. J. Günther, — mining prospects in, 338 [130]
- British mining—miners and merchants, J. B. Reynolds, 3
- mining, retrospect of, T. Spargo, 838
- and American telegraph Company, formation of, 89
- State Company, the, 239, 254, 255, 270; J. A. L. Barhard, 280; 302
- Association for the Advancement of Science, 514, 592
- Bryn Gwlog Mining Company, meetings, 272, 492, 715
- Buckfastleigh district, the, 51
- Burgh's quick-speed, high-pressure engine, 423
- Bwiche Consolidated Silver-Lead Mining Company, 464
- C.
- Carnarvonshire Consols, 20; B. Lelan, 29; meeting, 204
- Caerhun Slate Company, meeting, 133
- California, mining in, 183, 237, 248; the lodes or ledges of, W. Hoskin, 839
- Canabon district, prospects in the, C. Bawden, 286, 354, 427
- Cannock King, the, 195
- Cape Breton, the climate and gold fields of, 767, 787
- Cape Copper Mining Company, meetings, 753
- Cape Cornwall Consolidated Mining Company, meeting, 690
- Cadbrook Fells Mining Company, T. E. Foakes, 56; 648; meeting, 824
- Canada gold and other mines, A. Somerville, 788, 862
- Cannel coal, the meaning of the term, 58
- Capital, investment of, in mining, T. Spargo, 82
- Carnarvon and Bangor Slate Company, formation of, 89, 104; T. Harvey, 131, 150; T. Collier, 150; T. Jennings, 165
- Caryfort Mining Company, meeting, 25
- Capula Silver Mining Company, meetings, 321, 869 [165]
- Caslobury fire extinguisher, the, 329
- Cardiganshire Lead Mining Company, meetings, 340, 428
- lead mining, A. Francis, 325, 427
- Castell Carn Duochan Mine—Gold in Wales, J. Parry, 355
- Cefn Brynno Mining Company, the constitution of, 244, 276
- Central South Wales Mining Company, meetings, 65, 459
- American Association, meetings, 361, 476, 637
- Chala and Anchor Act, the operation of, and its failure, W. Chatterley from Company, the, 481 [Bayliss, 286; 294]
- Chatterley's Patent Safe and Lock Co., formation of, 40
- Chatapote from South America, 499
- Chemistry of the Primordial Earth, T. S. Hunt, 379
- the Student's Practical, H. Morton, 257
- Chemical products connected with mining, 21, 27
- China-clay and china-stone, 2, 19; in Cornwall, 239; in North Wales, 247, 254
- China, mining in, 816
- Chiverton district, prospects in the, C. Bawden, 166, 239
- Moor, the boundary question at, 219, 239
- Chlorine, the new process for making, L. Bagges, 606, 626, 646, 663, 675; W. Weldon, 626, 646, 659, 679, 740; 664
- Cholar-Potot (Nevada) Mining Company, progress of, 613
- Chonales Gold Mining Company, the progress of, 40, 156, 198, 292, 334, 464, 512, 523, 596, 611; Capt. Pim (with map of the country), 621; 682, 701; meeting, 782; 787, 793, 812, 864, 872
- Clara United Mining Company, meeting, 761
- Clerical and Medical Assurance Society, meeting, 4
- Coal mining, improvements in—the winning department, 2; pillar and stall and longwall workings compared, 18; underground transit, 34
- statistics of coal strikes, J. Ruglen, 2; "Looker-On," — mining in France—Pas de Calais department, 3 [18]
- and iron trades, review of the South Yorkshire, 12
- trade of Flintshire, 23
- trade, the export, 159
- trade, the chairmanship of the northern, 687
- recent discovery of in Shropshire, 12
- and Coal Mining, a Treatise on, W. W. Smyth, 26
- mines, the prevention of accidents in, and the inspection of, the relative value of gas, 442 [tion of, 26]
- mines, compensation fund for accidents in, W. R. J. Hopkins, 34, 50
- in the Brazil, 52, 175
- mines, removing gas from, J. G. Williams, 60
- miners' lives should be insured, 66
- improvements in working the Barnsley, J. Wardle, 82
- mine owners, ought they to be made as responsible as factory owners, &c., 98
- and steam superheated—Messrs. Smith and Chease's engine, 91; J. Clare, 98
- districts in Bohemia and Saxony, 98
- in Russia, 135
- mines in Spain, 153
- anthracite, trade of the United States, 153
- basin, the South Wales, E. Hull, 160
- mines inspection, "Colliery Viewer," 182, 202, 218, 238; 210, 211
- fields, the duration of our, E. W. Binney, 198; Prof. Jevons, 212, 227; 803
- field of Yorkshire, Derbyshire, and Nottingham, 160
- mines, extinction of fires in, A. Atherton, 211
- the utilisation of refuse, A. Baasets, 219, 499, 687; D. Barker, 227, 406, 442, 769; 899; 420; Roberts, 490, 491; J. Bird, 546, 581, 626
- ash, under the microscope, J. B. Dancer, 267
- Welsh and North Country steam—Admiralty contracts, — mechanical washing of, E. Edwards, 415 [279, 280]
- substitute for, in the manufacture of gas, 451
- cutting by machinery, prices for best machines, &c., 107, 114, 128, 130; E. W. Campin, 180; 254; Roul-
- ledge and Ommanney, 432; Sturgeon and Walker, 670; 699; A. Howat, 708; Firth and Co., 716, 731, 767; 738; J. G. Jones, 751; 758, 775, 787
- Coal, the supply of to London, 498
- fields of North Somersetshire, 893
- fields, our, "Clivia," 745
- opening of the Barnsley seam, 671
- in the Indian Archipelago, 795
- relative economy of anthracite and of bituminous, in steam-boilers, 809
- the Lancashire and Cheshire steam, 814
- mines exhausted of, their danger, 855
- Colliers their own police, 853
- intimidating colliers, 854
- Colliery workings, safety in—compressed air, 2
- workings, C. Hodgson—safety lamps, 18; safety-lamps and their perils, 66
- managers, the responsibility of, 66, 295
- inspection, extension of official, 90
- inspection, and coroners' inquests, 91
- workings in Scotland—how to deal with bad roofs, 354
- accidents in Shropshire—education, 354
- accidents—overloading, 374; R. Aytoun, 390; 406, 500
- in North Staffordshire, 483
- Unionists, violence by, 693
- explosions—Tolke, 27, 34, 43, 88, 92; Oaks, 28, 34, 44, 75, 213, 249, 296, 302, 318, 336, 348, 364, 390, 424, 436, 468, 516, 532, 600, 636, 650, 685, 760, 776; Milne Lea, 364; Garwood, 564; Holywood, 776; Botteslow, 776; Homer Hill, 776, 796; Ferndale, 777, 796, 866, 876; Blangy, France, 872
- explosions, their prevention, R. Davies, 828
- explosions, Thos. Gray, 31; W. Reynoldson, 192; Mr. Smith, 295; J. G. Williams, 390
- explosions, and the barometer, J. Rofe, 307
- explosions, and relief funds, 363
- Coke and Charcoal, the manufacture of, H. Chamberlain, 641
- Colonial Bank, meeting, 4
- Colorado, mining in, J. F. Hall, 172; mineral resources of, Compressed air—safety in colliery workings, 2 [344]
- Commercial position and prospects, our, 482
- Commerce in the British American Provinces, 751
- Companhia de Mineracao da Azambuleira Co., meeting, 271
- Confederation of ironworkers, the proposed, 706
- Connors Mining Company, meetings, 716, 721
- Copper smoke as a manure, H. A. Vivian, 12
- smoke, no more, 783, 892
- ore, quarterly sales of, 37, 208, 236, 461, 747; Grylls's Annual Sheet, 477
- mines of Chile and Bolivia, 147
- mining in Cornwall, 374
- ore, on the assay of, by the humid and dry methods, 458
- producers, good news for, 839
- trade, the future of the, 636
- Cornish miners in Scotland, J. Roberts, 150
- Clay and Tinworks Company, W. H. Wilcock, 99
- engines, the duty of, 590
- mining, is it a legitimate speculation? N. Ennor, 114, Cornwall and Devon Miners' Assoc., meeting, 579 [131]
- Cost-book System—relinquishment of shares, 114
- Co-operation, or partnership, between master and man, Fox, Head, and Co., 58
- Corporation of Mine Agents of South Staffordshire and East Worcestershire, inauguration of, 44
- Costa Rica, the mineral resources of, 400, 421, 434
- Cradock Moor Mine, and its management, 138
- Crofton Mining Company, meetings, 129
- Credit Foncier of England, meeting, 130
- Crenner and Wheel Abraham Mining Co., winding-up, 106
- Crofton Valley and Port Madoc Freehold Slate Company, Cradocks, magenta, 445 [meeting, 52]
- Crushing, improvements in, T. Carr, 376; Blake, 773
- Cueil's Annual Statistics of the Mining Interest, 148
- Currency and exchange, A. Longbottom, 238
- Cwt-y-Bagall Slate Company, meeting, 133
- D.
- Dale Mining Company, meeting, 40 [883]
- Darien Canal Inc., E. Cullen, 218, 447, 653, 745, 768, 867, 308, 344; meetings, 5-8, 324
- De Lery Gold Mining Company, issue of stock, &c., 136, 244, 308, 344; meetings, 5-8, 324
- Depolarisation of iron ships, E. Hopkins, 41
- Depression in trade, the cause of, N. Ennor, 863; 887; J. R. Wilkin, 888
- Devon Wheel Mines Mining Company, the prospects of, 115
- Great Maria Mining Company, meeting, 260
- Great Consols Mining Company, meeting, 320
- Diphwys Casson Slate Company, meeting, 476
- Disintegrator, Carr's patent, 330
- Distress of Cornish miners, a practical suggestion for relieving the, 535
- Don Pedro North del Rey Gold Mining Company, meetings, 174, 185, 356, 432, 577, 599; 648
- Double shift or Single Shift systems, J. Nixon, 787, 794; Lord Kinnaird, 881
- Dowsing-rod, the, M. Fryar, 508; J. Y. Watson, 523; B. Gould, 531
- Drake Walls and West Drake Walls, and their management, 491; R. Clogh, 648
- Dread Mining Company, meeting, 629
- Dundalk Silver-Lead and Copper Mining Co., meeting, 89
- Dunraven United Collieries Company, meeting, 253
- Dyfnwryn Mine, and its management, 82, 292, 304, 308, 339; meetings, 356, 609, 557; 555, 573, 789
- E.
- East Holyford Mining Company, 51; G. Henwood, 82, 181; C. H. Vail, 151; 151 [716; 151, 184, 203]
- Wheel Ruston Mining Company, meetings, 52, 272, 492, 579
- Wheel Ruston Consolidated Silver-Lead Mining Company, meetings, 84, 804, 824; 260
- Providence Mining Company, 160
- del Rey Mining Company, meetings, 340, 733
- Wheel Seton Mining Company, meeting, 846 [943]
- Gunnislake and South Bedford Consols, meetings, 390, 400
- Wheel Neptune—the Marazion district, M. Francis, 574, 701; 691
- Russell Mining Company, meeting, 592
- St. Just Mining Company, meetings, 592, 669
- London Railway Company, 652
- Carn Brea Mining Company, meeting, 721; 829
- Ebbw Vale Company, meetings, 173, 184, 428
- Economic Life Assurance Society, meeting, 294
- Education, industrial and scientific, 723
- Elbe Colliery Company, meeting, 187
- El Chico Silver Mining and Reduction Co., meeting, 423
- Electricity, frictional, without friction, 415
- Ely Valley Colliery Company, formation of, 9
- Emigrants, hints to, C. S. Richardson, 60, 184
- Engines, the rival American, 759
- Encumbered Estates Court, Ireland, G. Henwood, 270; 236
- English and Australian Copper Co., meeting, 116, 494, 608
- Assurance Company, formation of, 665
- Espinosa Silver Mining Company, formation of, 480
- F.
- Factory Acts Extension Act, and the iron trade, 295, 296, 460, 467, 469, 484
- Fairbairn Engineering Company, meeting, 260
- Ferndale Explosion, H. H. Vivian, 842
- Ferndale relief fund, the 807, 815, 816, 824, 836; the Inquest, 894, 903 [Atherton, 374]
- Fires in coal mines, a new method for extinguishing, J. F. Fire-damp, application of to illumination, J. Hutchinson, 450, 746
- Fire-damp indicator (Ansell's), C. Hodgson, 2; 10, 18; J. Brown, 26, 66; 35; Lord Kinnaird, 80; G. F. Ansell, 218, 270, 334; 302, 382 [203]
- Foot bridges over crowded thoroughfares, 159; G. W. Hayo, Forefeiture of shares, the law of, 74
- Forest and water supply, notes on, J. G. Günther, 678
- Forges and mills in the North of England, 161
- Fortuna Company, meetings, 220, 648
- Founder of the South Staffordshire iron trade, 335
- "Fouling and Corrosion of Iron Ship," C. F. Young, 460
- France, Mr. R. S., and Lord Redesdale, 122
- Free Labour Society, A. 884
- French miners, mode of life of, 101
- Fremator Granite Quarries Company, formation of, 684, 725
- Frontino and Bolivia Gold Mining Company, 8, 30, 28; H. L. Phillips, 36, 204, 255, 374; W. Goyen, 5, 318, 391; J. Harris, 67, 82, 150, 183, 219, 270, 408, 443; dismissal of summons, 137; W. H. Tregoung, 239; meetings, 392, 421; 461, 580, 648, 737, 812, 832, 864
- Fuel, economy of—theory of the process, T. Harvey, 67
- Furnace, an improved regenerative, T. Petitjean, 591 [864]
- for smelting copper ore, J. Bagges, 751, 808; W. Bevan, 864
- G.
- Gale's Protected Gunpowder Company, winding-up, 117, 795
- Gas, the nature and use of, W. R. Bowditch, 156
- pipes, the destruction of—to gas managers, R. L. Robinson, 166
- the absorption of by metals, Prof. Odling, 671
- substitute for coal in the manufacture of, 451 [627]
- penetrating explosive—safety helmets, J. Wilkinson, — atmospheric, H. S. Maxlin, 797
- utilisation of gas-oven, Jenkins and Rac, 864, 895
- explosions of collieries—drainage of gases—stationary safety-lamps, G. J. Günther, 887
- General Mining Association, meetings, 116, 428
- Mining Company for Ireland, meeting, 380
- Geological Society of London, meetings, 41, 104, 120, 140, 166, 208, 223, 324, 357, 391, 423, 774, 823, 854
- Society of Dudley, meetings, 108, 124 [730]
- Society of Manchester, meetings, 140, 293, 357, 374, 531, 532
- Glew Consolidated Mining Company, formation of, 833
- Glacial period in North America, T. Belt, 59
- Glasgow Caradon Consolidated Copper Mining Company, meeting, 89; 523
- Gladsting Mining Company, formation of, 544
- Glynorhyr Slate Company, meeting, 357
- Gold and metallic ores in America, 42
- discovery of, in North Brazil, 58
- mining in Canada, 85, 156
- and silver, the supply of, 117
- and silver, the production of, since the working of the mines of California and Australia, 140
- in Wales—successful results, 263
- the mining and metallurgy of, A. Phillips, 582
- and silver—separating from lead, 689, 698
- mining as an investment, 739
- in Australia, first discovery of, 788
- mining in California, 843
- Gold-thney district, mining in the, M. Francis, 679
- Gonamena Mine management, 262
- Gothic Silver-Lead Mining Company, meeting, 109
- Governor and Company of Copper Miners in England, meeting, 293, 329 [100, 644]
- Great North Downs, the progress of, 8, 40, 69; meetings, — Retallack, the prospects of, 24, 131, 287 [trict, 35]
- East Wheel Rose and Old Shepherds silver-lead dis-
- Laxey Mining Company, the management of, 67; meetings, 83, 167, 698; 107; Rowe, 115; J. H. Murchison, 115; J. Kitto, 116, 208, 575; T. Thompson, 628; 864, 869
- South Chiverton Mining Company, meetings, 68, 824
- South Tolgus Mining Company, meeting, 508
- Mona Mining Company, progress of, 158; meeting, 221
- North Laxey Mining Company, meetings, 167, 199
- Wheel Vor United Mining Company, meetings, 169, 184, 408, 698, 628, 848, 868
- Darren Mine, the progress of, 173 [nation of, 293]
- Chiverton Consols Silver-Lead Mining Company, for-
- Cymyngyl Silver-Lead Mining Company, formation of, 305, 396 [ing, 356]
- Barrier, Land, Harbour, and Mining Company, meet-
- Wheel Neptune lode, the, 574 [667]
- Republic Gold and Silver Mining Company (Nevada), Gun-cotton, experiments on, 191; F. A. Abel, 679
- Gunnislake (Glitters) Mine, the progress of, 407
- Gunpowder, an explosive, Mr. Sumey, 191, 489; F. Gwynnall district, prospects in the, C. Bawden, 35
- Gwynnall Lead Mining Company, W. Wasley, 507
- Gypsum in Monaghan, 678
- H.
- Haloxylon, —the new blasting powder, 415
- Hamm, a pneumatic, Mr. Wagon, 235
- Haydon Estates Coffee and General Plantation Company, formation of, 360, 370, 432, 480, 632
- Hayti, the mineral resources of, 67
- Helston district, silver mining in the, 354
- Hematite Iron Company, progress of, 41
- Hendall Slate and Slab Company, meeting, 134
- Henry Briggs, Son, and Co., meetings, 523, 616, 657
- Herod-foot Mining Company, meetings, 121, 453
- Hints to emigrants, C. S. Richardson, 60, 184
- Hirwaun Coal and Iron Company, meeting, 671
- History of mining (see Mining)
- Hollybush Colliery Company, meeting, 152
- Home industry for English capital, 29
- Hot Air Engine Company, formation of, 286
- Hot-blast and cold-blast superheated, J. Bayliss, 273
- Hull Dock Company, issue of additional shares, 873
- Hydrocarbon as a fuel, F. H. Thompson, 802
- Hydrochloric acid, improvements in the manufacture and treatment of, L. Bagges, 626
- I.
- Ilusory silver-lead mining in Wales, N. M. Maxwell, 99, 131, 150; G. Carne, 115, 150; A. Francis, 150; E. Pearce, 150
- Imperial Land Company of Marcellis, meeting, 137
- Silver Quarries Company, J. A. Phillips, 442
- Industrial Exhibitions, and their effects on the inventors and the progress of invention, F. W. Campin, 27
- Inspectors of Mines, recommendations of the, 130; amended General Rules, 138, 158; reports of, 174, 175, 781, 822, 834, 842, 857, 908
- Institution of Civil Engineers, meetings, 83, 168, 128, 303, 357, 460, 496, 804, 834
- Insurance for coal miners' lives, 66
- Inventions, premiums for, 114; improved, R. Bulgin, 200; 409; P. W. May, 429
- "Inventors and Inventions," H. Direks, 431
- the grievances of, 458
- Ireland, mining in, G. Henwood, 25
- Iron and steel, improvements in the manufacture of, H. K. York, W. Dela Rue, 25; J. Calvert, 205, 211; T. J. Bar-
- 467; J. Stenson, 509; A. L. Holley, 733; W. H. Dawes, 852
- girder manufacture at the Parkgate Works, 688
- and steel produced in Belgium and France, 310
- and coal trades, foreign competition in, Creed and Williams, 42, 54
- trade of the North of England, 58, 123, 263
- trade, competition in the, S. Ledward, 318
- trade, the American v. the British, 450, 794
- exports of railway, 211
- the manufacture of in Great Britain, I. L. Bell, 642

INDEX-TO THE MINING JOURNAL.

- Newfoundland, the mineral and industrial resources of, H. T. Verran, 19, 98; A. Murray, 707
- Nicaragua transit route, the, 829; the climate of, 889
- Nitro-glycerine, the properties of, 85; Webb and Co., 81
- North Staffordshire Oil Company, formation of, 11
- North Staffordshire Mining Company, winding-up, 74
- Wheat Robert Mining Company, meetings, 186, 804
- Wheat Chiverton Silver-Lead Mining Company, formation of, 186, 208; meetings, 320, 356, 809
- Levant Mine, terrible accident at, 221; W. Andrath, 289; meeting, 225
- of England Institute of Mining Engineers, meetings, 289
- Frederick Mining Company, meeting, 376; B. Matthews, 732
- Foxdale Mining Company, meeting, 592
- Northern Institute of Mining Engineers, meeting, 92; 175, 616, 759
- Northamptonshire Ironstone, the development of, 874
- Nova Scotia, the mining industry of, 248, 247, 262, 788
- the mineral wealth of, P. S. Hamilton, 475, 508
- the mines and minerals of, J. Tennant, 699
- the coal fields of, 807
- gold mines, the, D. W. Cairnie, 813
- items of interest from, 882
- O.
- Oaks Colliery difficulty, the, M. Fryar, 646
- Obituary—J. Tonkin, 63; Capt. J. Thomas, 77; T. Wayne, 245; Evan Hopkins, 360; N. Vivian, 409; A. Verner, T. Richardson, E. Gibson, 468; W. Crawshaw, 532; A. Prince, 585; J. D. Powles, 635; J. Straker, 708
- "Official List," and its quotations of mine shares, 864
- Oil, mineral, for steam fuel, 81m and Barff's apparatus, 75; Wise and Co., 221, 238; the manufacture of shale, Brash and Young, 277
- Old Wheel Russell—South Bedford, 3, 20, 35
- Gunnislake Mining Company, meeting, 320
- Westminster Mining Company, meeting, 868
- Ores, on the mechanical treatment of, J. Hunt, 87
- Otea Copper Mining Company, meetings, 375, 433, 748
- Ottoman Railway Company, meeting, 633
- Overwinding, preventing accidents from, J. Marley, 641
- P.
- Pacific, mineral wealth of the, 200, 207, 259, 547
- Paraffin, production of from Cannel and coal shale, 10; distilling of, Holmes and Perkins, 257
- Par Consoles Mining Company, meetings, 481, 773
- PARIS EXHIBITION.—Preliminary notices, &c., 41, 125, 239
- Machinery.—Beaumont's rock tunnelling machine, 295; Bernay's centrifugal pump, 295; centrifugal band pump, Messrs. Douglas, 327; Bastier chain pump, 363; Sisson and White's steam pile-driver, 295; Ladd's dynamo-magnetic machine, 311, 327; street railways, Train and Eastman, 311; ditto, Ransome and Sims, 326; atmospheric churn, Clifton, 227; coal-cutting machinery, Carrett, Marshall and Co., 227; ditto, Jones and Leitch, 400; hydraulic pulley-block, Tansy Brothers, 327; the United States machinery department, 347; Carr's disintegrator, 383; French winding and pumping engines, L. A. Quillaci, 400; excelsior brick-press, J. Gregg, 443; brick-making, P. Bawden, 468; the Hicks' engine, 485; the Mohevos, C. von Schubersky, 500; Frey's labour-saving machinery, 501; revolving head screw, Darling, Browne, and Sharpe, 616; Woolf engines, Corbarn Fils and Le Marchand, 583
- Manufactures.—Platinum and other rare minerals, Messrs. Johnson, Matthey, and Co., 311, 326; utilisation of tin-plate scraps, E. and C. Kuhn, 327; plumbago crucibles, J. Hynam, 347; safety-lamps, Dubrule, 363; fire and burglar proof safes, 435
- Metals.—L. Letrange and Co.'s trophy, 326; products of Prussia, M. Kohler, 363, 383, 571; alkali manufacture in Westphalia, Capt. C. Harkort, 383; Cleveland iron, Stevenson, Jacques, and Co., 415; resources of Austria, 445, 553; the WB lead, W. B. Beaumont, 443; Fagestra steel, 533; products of Belgium, Prof. F. Krans, 549; French metallurgical establishments, the Creusot Works, &c., 571
- Minerals.—Of New South Wales, 311; from the Pacific States, 347, 467; coal of the Dutch East Indies—the Banca tin islands, 347; the products of Prussia, M. Kohler, 363, 383, 435; the coal trade of France, 363; the Flora of the coal measures, Prof. Goepfert, 383; products of Germany, Messrs. Hausen, 415; the Bodengraben coal, 416; resources of Austria, 443; resources of South Australia, 443; Ferndale and Merthyr coals, 443; resources of Costa Rica, 443; resources of Nova Scotia, 485; English and foreign coal, 485
- Mining.—American Bureau of Mines, 400
- Paris Exhibition, a visit to the, 338, 406, 445, 467
- W. W. Smyth's report on, 693, 722
- coal and iron at, Prof. Ansted, 741
- Parkesine, its uses, 74, 120
- Panulicello Copper Company, meeting, 809
- Pendcon Consols Mining Company, meetings, 80, 219
- Penhale and Lomax Silver-Lead Mining Company, progress of, 21; meetings, 116
- Pestarens Gold Mining Company, meetings, 168, 685; 292
- Peat fuel condensed, E. Field, 107; A. M. Alloway, 236; T. V. Lee, 278; Foster, 432
- Peat, oil and paraffin from, S. L. Wiegand, 400
- Pedn-an-drea Mine, meeting, 380
- Penarth Dock and Railway Company, meeting, 364, 601
- Penhale Wheel Vor Mining Company, meeting, 680
- Pepper's Ghost, H. Dirks, 700
- Perranabuloe district, the, 908
- Petroleum in Italy, 21, 57, 103, 207, 482, 638
- in America, 57
- a new stove, 103
- as steam fuel, Richardson, 117, 262, 506; 382, 495; Col. in New South Wales, 123
- in Great Britain, 407
- the origin of, 461
- for fuel—its economy considered, 689
- Pneumatic stamp, an improved, A. B. Childs, 77; 82; Mr. Walton, 235
- Port Phillip and Colonial Gold Mining Company, meetings, Postal arrangements, improved, 376
- Portugal, successful mining in, 318
- Politics and commerce, 700
- Pozzolan, valuable discovery of in Italy, 255
- Post Office London Directory, 862
- Prosper United, the prospects of, 8; J. James's special report, 83; 131; meeting, 132
- Prince of Wales Mining Company, meetings, 100, 320, 804; 131, 541; A. James, 219, 491; C. Thomas, 230, 270; J. Gifford, 255; 391; W. Mitchell, 475, 496
- Slate Company, meeting, 152; T. Harvey, 868
- Provincial Bank of Ireland, meeting, 319
- Providence Mines, meeting, 813
- Propeller, Collis's patent, 575; the "Duck's Foot," T. L. Cottingham, 889
- Prussia, mining and metallurgy in, 769
- Prussian Mining and Ironworks Co., 563; meeting, 717
- Pump, improved rotary, Messrs. Foster, 121; improved mining, 263; Bastier's chain, 482
- Puddling furnaces, the construction of, 428, 490, 607, 627
- Puddling by machinery, J. Griffiths, 93, 147; 150; W. Menelaus, 376; "M. M.," 474; Morgan, 724; T. Roper, 804
- Q.
- Quebec hydraulic cement, F. H. Baddeley, 861, 892
- R.
- Railways, on the purchase of, by the Italian Government, — in Russia, 167
- in and to India, 148, 294
- constructor, the new, W. D. Robertson, 393
- their rise and collapse—remedy, 627
- the present position of, J. L. Thomas, 670
- Rating of Mines Bill, 75, 123, 239, 245, 860; Select Committee, 304, 319, 344, 369, 376, 391, 398, 444; J. G. Williams, 438, 490, 751; 739, 787, 829
- Reinlie Lacey Mining Company, meeting, 189
- Rhenish Prussia, lead mining in, F. W. Hupertz, 576
- Rhenish Consolidated Mining Company, meeting, 204
- Rope, combined hemp, Glaholm and Hobson, 25
- double, for coal pit cages, 114, 130
- Royal Copper Mines of Cobre, meetings, 38, 69, 133, 288; 188, 302, 507, 664, 733; T. C. Stephens, 700
- Cornwall Polytechnic Society, meetings, 576, 596
- School of Mines—technical education, 686
- Rossa Grande Gold Mining Company, meeting, 340; 412
- Rosie and Chiverton United Mining Company, meetings, Russia, the coal beds of, 576
- Russian (Vyksounsky) Ironworks Company, the progress of, 37, 209, 244
- S.
- Safety-lamp, a self-acting, Hall and Cooke, 3; working fiery collieries without, 286, 374, 496; "M. Morgan, 302; G. Adcroft, 302, 442; Mr. Dickinson, 357; 481; S. Higgs, 615; experiments with, 530, 546, 564, 599, 600; J. J. Horsfall, 607; 415, 723, 761; D. P. Morrison, 767, 787; E. H. Waldenstrom, 769; 775, 787, 881
- Safety-cages.—Broadbents, 175; Lord Kinnaid, 400; 406, 516, 715, 731, 787, 828
- Salmon Fisheries Inspectors' report, 499
- San Domingo Copper Mine, 738
- Sao Vicente Mining Company, formation of new company, 482
- Science and the arts—railways and mines, 906
- School of Mines, the American—Columbia College, 121
- Scorrier and Chiverton districts, prospects in the, Charles Bawden, 115
- Scotland, Cornish miners in, J. Roberts, 150
- Scottish Australian Mining Company, meetings, 376, 337, 337
- Scottish Australian Investment Company, meetings, 481, 492
- Shackleton, Ford, and Co. (Limited), 313, 364, 485, 399, 463
- Shropshire Copper Mining Company, meeting, 510
- Share dealing, speculative, T. Spargo, 715
- Siegena Sulphur Mining Company, 464, 483
- Silver-Lead Mining Company of Brittany, formation of, 863
- Silver ores, testing of, A. Hunter, 37
- mining in Nevada, 174, 491
- mining in the Helston district, 354
- improvements in separating lead from, 680, 688
- Slate quarry meetings, 20
- quarries—reports, 51; T. Harvey, 829, 882
- geologically and otherwise considered, 148
- quarrying in Wales—the Talsarn Quarries, 166
- on the identity of the Bangor and Nantlle veins of, T. Harvey, 189, 219, 286
- quarries, "Snowdon," 183; J. Bower, 238; 254
- quarry, the Cwm Elgia, 286, 302
- trade in North Wales, J. Kellow, 490, 523, 555, 591, 628, 664, 700, 732, 768, 808, 863; R. Williams, 788, 888
- Smetting, a new process of, F. H. Fletcher, 493
- Smyth, Warrington—Lectures on Mining, 4, 20, 36, 52, 83, 116, 145, 151, 169, 197, 213, 233, 239, 256, 271, 326, 334, 781, 801, 822, 841, 849, 903
- Snaefell Mining Company, meetings, 168, 629
- Snowdon Slate Quarries Company, J. Bower, 238; T. Harvey, Society of Engineers, meetings, 83, 238, 303, 706
- Sodium amalgam, H. Wurtz, 82; G. Levison, 459
- Sonora Silver Mining Company, formation of, 833, 849
- Sound, the Royal Institution lectures on, 582
- South Fowey Consols Copper Mining Company, formation of, 58; meetings, 255, 444; 276, 308, 848
- Frances and West Basset, boundary question, W. A. Buckley, 67, 153; 593
- Herodfoot, the progress of, 72
- Wales Colliery Company, meeting, 162
- Wales Institute of Engineers, meetings, 213, 234, 369; L. Brough, 574
- Staffordshire, its present condition and future prospects, 247
- Darren Mining Company, meetings, 380, 823
- Trevena Mining Company, meeting, 787
- Salop Mining Company, J. Smith, 752
- Spain, the mineral products of, 58
- the mines of, 139
- Spathose iron ore, R. Mushet, 302
- Speculation and Panic Preventer, F. Maunders, 475
- Speigelsen, the manufacture of, 400
- Steam-Boilers, improved—T. Holt, 107; A. Hitchcock, 357; H. Leslie, 318
- boilers, prevention of explosions, C. S. Ebaugh, 237
- generating of by gas, Mr. Jackson, 225
- engine, the, as it is, and as it should be, Craddock, 370, 390, 426, 593
- engine, improvements in, A. C. F. Franklin, 739
- boilers at ironworks and collieries, 582
- boiler feeder, an automatic, A. F. Neynaber, 641
- crane, a new patent direct-acting, A. B. Browne, 747
- economy in generating, J. and F. Howard, 795
- Steel, cast, and how to make it, A. L. Fleury, 29
- cast, magnesian crucibles, Mr. Caron, 172
- manufacture of, V. Gallet, 509
- Steeple Aston Iron Ore Company, formation of, 671
- St. Day United Mines, serious and critical position of, 307, 341
- St. John del Rey Mining Company, meetings, 36, 397, 408, 539, 717, 843, 848
- St. Broock and St. Issay districts, prospects in the, 115
- Stone, Ransome's artificial, 429
- Striker, patent self-acting steam, D. Davies, 28
- Strikes in the coal trade, 346
- Styrian Steel and Iron Company, formation of, 448
- Sulby River Mining Company, meetings, 116, 705
- Sulphate of baryta in Ireland, 308
- Sulphur ores near Meggen, 417, 532
- Summer Hill Mining Company, meeting, 476
- Sunlight in the mines, Larkin's magnesian lamp, 212, 235
- Swansea Zinc Company, formation of, 721
- T.
- Taft Vale Railway Company, meeting, 140
- Taqaarl Gold Mining Company, formation of, 386, 496
- Talsarn Quarries, and Mr. T. Harvey's report, 166; and the British Slate Company, 183
- Talgarth Slate and Slab Quarries, 56
- Tamping bars, copper—old men's workings, 256; T. Nicholls, 374
- Telegraphy, submarine—improvements in, J. de la Hare, 8
- Ticketing expenses, important reduction in the, 367, 738, 864
- Tin mining in Cornwall, 131
- ores, the supply of, 166
- the price of, 255, 442, 465
- trade, facts relating to the, 370
- producers, good news for, 474
- trade—a new source of supply, 538
- discovery in Missouri, R. W. Dunstan, 699, 731
- dressing, improvements in, R. H. Williams, 769
- Tin-plates, new patent for preparing, T. F. Parsons, 246
- Treasury Consolidated Mines Company, prospectus, 368, 396
- Trevaras Tin and Copper Mining Co., formation of, 208
